To Whom It May Concern,

Christy's DancExplosion is an affordable, high quality dance studio located in Garner, NC. For the past 18 years, we have served over 1000 children in our community. Our greatest joy as dance educators is watching our students learn and grow in a positive way. We absolutely love to share the art of dance and music with children. We believe that dance and music are core elements in child growth and development. Through developmentally appropriate practices, we watch each child grow and flourish from lesson to lesson.

Our Traveling Preschool Dance Program is a great way to introduce children to the art of dance while they are at their regular Child Care facility. Our qualified, energetic instructors travel to the Child Care facility to teach a weekly class in different genres based on the children's age group. We offer dance classes to ages 18 months and up. Genres can include but not limited to Creative Movement, Ballet, Tap, Jazz/Hip Hop and Tumbling.

Our program focuses on sharing the love and art of dance with the children while also teaching proper technique. Our curriculum teaches balance, coordination, and confidence. Our main goal is to have an encouraging environment for children to learn and grow in their confidence, skills, and physical fitness.

All students enrolled in the program are eligible to participate in all of the performances and events that we offer to CDE students that dance at our facility. We participate in Christmas parades and have two performances in May 2019. We really feel that performances give the students something to work for and build upon the confidence we instill throughout the lessons. There is nothing more rewarding than seeing a child's face when he/she finally gets to perform on the "big stage" and show family and friends the results of everything learned in class.

We would love to bring our Traveling Preschool Dance Program to your Child Care facility. If you are interested, we would love to speak with you! Best Regards,

Christy Wood, Owner & Director
